Updated ChildCareStrongNC Public Health Toolkit

Now Available

The Division of Child Development and Early Education (DCDEE) has updated the [ChildCareStrongNC Public Health Toolkit](#) to reflect recent changes in guidance, clarify language, and be responsive to questions that have arisen in the child care field.

The April edition of the ChildCareStrongNC Public Health Toolkit includes the following updates:

- Change in terminology from “social distance” to “physical distance” (throughout the Toolkit)
- Clarification on Daily Health Screenings (page 5 & 16)
- Updated Summary Table for Returning from Exclusion (page 7-8 & 16-17)
- Resources related to the COVID-19 vaccines (page 18)
- Added definition for “fully vaccinated” (page 25)

If you have questions about these updates, please contact your child care health consultant.
